

12 FIFTH AVENUE

A7 Sportback

Progressive
design
language
needs no
translation.

Bringing the vision of the revolutionary Audi design language to the road: the Audi A7 Sportback. A futuristic manifestation of the sportiness and elegance. Impressively accentuated through classic quattro architecture. Proof that part of staying true to yourself is being prepared to change.

Nothing lasts
as long as
a first
impression.

Design and functionality cast in a whole new light. As standard with virtually maintenance-free full-LED headlights and continuous light strips on the rear. On request with innovative HD Matrix LED headlights with Audi laser light including the dynamic light presentation of the coming home/leaving home function. Ensuring that the beginning and end of each trip are as impressive as the drive itself.

New light requires new sources.

See and be seen. The basis for driving safely at night. With powerful support from the new standard HD Matrix LED headlights with variable light control. Turning individual light segments on and off greatly enhances illumination of the road. High definition and virtually glare free. On request with the new Audi laser light. The innovative light source for outstanding range and improved visibility, even at high speed.

Getting feedback can be a step forward.

A revolutionary operating concept awaits you in the Audi A7 Sportback: MMI touch response. Few buttons, more convenience. An easy and intuitive way to control infotainment and convenience functions - just like on your smartphone. Thanks to haptic feedback, you don't have to take your eyes off the road. And on request with MMI navigation plus including an overview of a wealth of key vehicle information and functions displayed on a 10.1-inch touchscreen and in the Audi virtual cockpit with high-resolution 3D map representation on a brilliant 12.3-inch display.

Intuition
is not
something
you learn.

There's almost nothing more intuitive than the spoken word. In the Audi A7 Sportback, you have the option of using this simple device to operate the MMI. Thanks to the optional natural language interaction – a language assistant that listens to you, answers you and carries out certain vehicle functions. Without having to define prescribed terms and in everyday speech.

The image shows the interior of a car, likely an Audi, with a focus on the front and rear seats. The seats are upholstered in a dark, textured material, possibly leather or a high-quality fabric, with visible stitching. The dashboard and center console are also visible, featuring a modern, minimalist design with a digital display on the center console. The overall atmosphere is one of luxury and comfort.

Setting the pace for space.

Welcome to an atmosphere that's all about light, space and loving attention to detail. Enjoy a space that is both playground and refuge. Even when you're not the one behind the wheel.

The best
visions are
already
taking
shape.

A vehicle that is redefining benchmarks across the board. And one that fascinates at first glance thanks to a new design language. Impressing with dynamism and efficiency. Ushering in a new era with progressive technologies, a revolutionary operating concept and digital connectivity. The Audi A7 Sportback – Vorsprung durch Technik designed for the mobility of the future.

Audi is more.

Audi intelligent technologies.

The next step towards achieving our vision of piloted driving. In the Audi A7 Sportback, you can experience the mobility of the future today. With the option of advanced assist systems and helpful automated driving functions. For even more convenience. And that fascinating feeling of having been transported to the future.

An aerial view of a dark blue Audi sedan on a city street. The car is surrounded by various sensor overlays: concentric circles representing radar or lidar, and lines representing camera or sensor beams. A runner in a light blue tank top and pink shorts is on the sidewalk to the right. A cyclist in a blue shirt is in the foreground, blurred. A pedestrian is on the sidewalk to the right. The car's license plate is 'LN A 7429'.

Delegating leaves more time for what's really important.

Anticipation – one of the most effective skills to ensure a safe and relaxed drive. One job that you can sometimes leave to the most recent generation of optional driver assistance systems. To stay in lane or to maintain speed or distance in tight thoroughways such as motorway roadworks. Enlist the support of the adaptive drive assist including speed limiter, efficiency assist, collision avoidance assist and turn assist. Even on narrowed lanes, thanks to assisted lane guidance provided by bottleneck assist.

A smooth operator.

Vehicle functions and infotainment at their best. Confidently managed in the simplest way possible. Thanks to operation that is so intuitive that you hardly know it's there. So you can focus your attention on the joy of driving the Audi A7 Sportback.

01 Audi virtual cockpit with 12.3-inch colour display including presentation of navigation map

02 Control buttons in black glass look with proximity sensors and haptic feedback, including extended aluminium look

03 MMI navigation plus with MMI touch response for fast, intuitive operation

Comfort broadens its horizons.

Feeling comfortable while on the move is a question of atmosphere. In the Audi A7 Sportback, you call the shots. For instance by choosing the optional panoramic glass sunroof, which combines a light and friendly atmosphere with the feeling of increased space. Or go for the optional air quality package, comprising ionizer and scent delivery, for superior air quality in the interior. You may also opt for the 4-zone deluxe automatic air conditioning to give each seat its own custom climate. Fast and efficient, thanks to personalization, occupant recognition and sensor-based intelligent control.

Forward
is the only
direction
that counts.

Experience just how comfortable forward thrust can be. Thanks to the optional suspension including damper control with electronic adjustment for a variety of driving situations, or the outstanding comfort and self-levelling of the adaptive air suspension.

The S tronic 7-speed dual-clutch transmission offers fast gear changes with no perceptible break in propulsive power.

Short breaks result in new drive.

Dynamics and efficiency. Two virtues that dovetail perfectly in the Audi A7 Sportback. Made possible by efficiency measures including lightweight design, efficiency assist and the innovative mild-hybrid technology – all features of the Audi A7 Sportback.

In combination with the combustion engine, the mild-hybrid system uses recuperation to obtain electrical energy that can then be stored and used in certain driving situations. To deliver an additional power boost, for instance, or for emissions-free driving in coasting mode.

Features include:
_Front and rear bumpers in a striking, sport design
_S-specific side sill trims painted in body colour
_Illuminated door sill trims with aluminium inserts, front and rear, with S logo at front

More striking. With the S line exterior package.

Don't just emphasise the sporty character of your Audi A7 Sportback, enhance it. With the optional S line exterior package, you can lend the dynamic body line of your car an even more exhilarating edge and create special accents with exceptional design details.

Radiator protective grille and side air inlets in titanium black

S line-specific diffuser and grille painted in titanium black

Illuminated door sill trims with aluminium inserts, front and rear, with S logo at front

More sporty. With the S line sport package.

The optional S line sport package lets you show your dynamic side – all along the line. With details that further enhance the sporty character of the Audi A7 Sportback. Lend the interior even more expression or give the suspension even more sporty definition for enhanced driving dynamics. And make a true athletic of your Audi.

20-inch cast aluminium wheels in 5-twin-spoke V design

Features include:

- _Sport seats, front with S embossing on the backrests
 - _S line seat upholstery optionally available in Valcona leather, rotor grey with contrasting stitching, also available in black
 - _Floor mats, front with piping and contrasting stitchings
 - _S line sport leather steering wheel with multifunction
 - _Inlays in dark matt brushed aluminium
 - _Footrest and pedals in stainless steel
- 

A wide-angle view of the front interior of an Audi car. The seats are upholstered in dark brown leather with a perforated texture and contrasting stitching. The dashboard and center console feature wood grain inlays. The steering wheel is a twin-spoke design. The background shows a city street scene through the windshield.

More exceptional. With the Audi design selection.

Make an exceptional vehicle even more exceptional. The Audi design selection in sard brown or juniper grey offers you an aesthetic pre-selection of special materials and colours for the interior. High-quality inlays in conjunction with fine leather upholstery and trim along with attractive contrasting stitching lend the interior an exclusive ambience.

Features include:

- _Optional customised contour seats, front optionally available in Valcona leather, sard brown with contrasting stitching and piping in steel grey
- _Twin-spoke leather steering wheel with multifunction and shift paddles

_Inlays in fine grain birch, natural agate grey
_Interior elements in artificial leather, sard brown with contrasting stitching in steel grey

Powerful look.

Select the paint colour that best suits your personality. Secure in the knowledge that the quality will be superb, because your vehicle is painted not just once, but four times. So not only do you look radiant in your Audi, the car is also protected from many environmental influences as well as wear. Ensuring that the car maintains its powerful look throughout its entire lifetime.

Many additional paint finishes can be found at www.audi.com.sg.
