

RS 5 Sportback

 Audi Sport

OWN EVERY SECOND

 Audi Sport

We count seconds, not to measure time.
We count seconds to feel alive.
Because you can simply let a second pass unnoticed.
Or grab it boldly and turn it into an exciting one that
remains unforgettable for a lifetime.

It's up to no one but you how you use your every second.
So, are you going to waste it?
Or own it?

Audi Sport. #OwnEverySecond

DRESSED TO PERFORM

The new Audi RS5 Sportback.

The new Audi RS5 Sportback combines high performance with thrilling design – and good everyday usability. The new RS design language featuring RS bumpers with generous air inlets will take your breath away in fractions of a second. One look is all it takes to see that the new Audi RS5 Sportback is dressed to perform.

The fuel consumption and CO₂ emission figures can be found on page 24.
Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

FRONT ROW OR POLE POSITION?

An RS5 driver's natural home is on the front row – especially at traffic lights. Even before the ignition first sparks into life, the sporty ergonomics leave no room for doubt as to the power lurking under the bonnet, waiting to be tamed by the flat-bottomed RS sport contour leather steering wheel with multifunction plus and large shift paddles. The Audi virtual cockpit with RS menu is ready to assist with all the essential trip information. With a view like this in front of you, the decision between Fashion Week and race weekend has never been easier.

The fuel consumption and CO₂ emission figures can be found on page 24. Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

ELEGANCE WITH A SPORTY TWIST

The new Audi RS 5 Sportback doesn't follow any dress code. It sets its own. For example, you can choose the Audi exclusive Sonoma green design package for the optional RS sport seats with seat centre panels in fine Nappa leather with honeycomb pattern. Go for sporty accents in fine Nappa leather, black with contrasting stitching in Sonoma green for the seat upholstery, head restraints, front centre armrest, door armrests and centre console – to name but a few of the highlights. Rarely has a four-door Sportback caused such a sensation.

The fuel consumption and CO₂ emission figures can be found on page 24.

Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

TURNING ROAD TO RACETRACK

Thanks to the sporty 2.9-litre V6 twin-turbo engine developing 331 kW and 600 Nm of torque, the new Audi RS5 Sportback knows only one direction: to the limit. With the 8-speed tiptronic transmission, it hits the 100 km/h mark in just 3.9 seconds – and keeps on going until 280 km/h¹. Not only that, but the RS sport suspension plus with Dynamic Ride Control (DRC) makes for high cornering speeds, too. The road will be powerless to resist, no matter how many chicanes it throws at you.

The fuel consumption and CO₂ emission figures can be found on page 24.

Some of the equipment illustrated or described is optional equipment for which an extra charge is made.

Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

¹ Electronically regulated.

SPEEDING GLANCE TO TRANSCEND

If you want to draw attention in a matter of milliseconds, nobody will shoot past the Audi RS5 Sportback. It's an athlete in top form – with four doors, but a unique coupé silhouette. Wheel arch extensions, 19-inch ceramic brakes on the front axle, 20-inch forged aluminium wheels in 5-arm flag design and the striking colour Sonoma green, metallic all work together to attract more glances per hour. Not to mention heartbeats per minute.

The fuel consumption and CO₂ emission figures can be found on page 24. Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

WHO SAYS YOU CAN'T MAKE A CATWALK OUT OF ASPHALT?

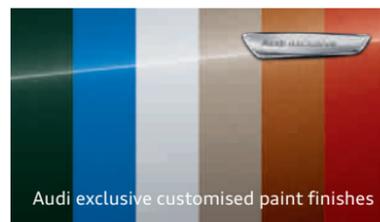

It doesn't always have to be Paris, Milan or New York. The new Audi RS5 Sportback transforms the road into its very own catwalk, even far away from the famous fashion capitals. The carbon styling package including attachments in gloss black enhances the sporty look: thanks to a front spoiler, carbon inlays on the sill extensions, rear spoiler and diffuser insert. Not to mention the radiator protective grille trim frame, trim strips on the side windows and a gloss black horizontal bar in the rear diffuser insert. The optionally available Audi rings and gloss black logos round off the car's sporty looks in impressive style.

The fuel consumption and CO₂ emission figures can be found on page 24.
Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

YOUR AUDI GETS MORE THAN JUST ONE COAT OF PAINT

It gets several.

Choose the paint finish to suit your individual taste. But whichever colour you opt for, you can count on the outstanding quality of our painting process. Though no thicker than a human hair, the layer of paint on an Audi is made up of four coats. To ensure that your Audi is optimally protected from environmental influences and wear. And also outwardly reflects your personality.

The fuel consumption and CO₂ emission figures can be found on page 24.

Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

THE PERFECT CONNECTION BETWEEN AN AUDI AND THE ROAD

Audi Sport wheels.

To make sure you have peace of mind every inch of the way, Audi Sport puts its wheels through an exacting series of specialised test procedures. Hardness tests, for example, aim for maximum stability. And a copper-accelerated salt spray test – CASS for short – using acetic acid guarantees the best possible corrosion protection. Thanks to these and many other measures, we can ensure that every Audi Sport wheel offers maximum quality, even after scores of miles. No matter which of the numerous designs you choose.

19-inch forged aluminium wheels in 10-spoke star design

20-inch forged aluminium wheels in 5-arm flag design

20-inch fully milled aluminium wheels in 5-arm peak design in matt titanium look, gloss milled finish¹

20-inch forged aluminium wheels in 5-arm flag design in gloss anthracite black, gloss turned finish¹

Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment. You will find specifications on the technical characteristics of tyres on page 25.

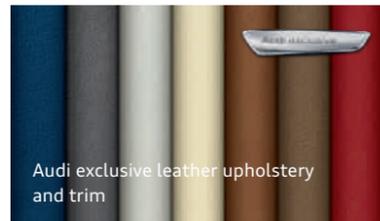

¹Please note the special information relating to wheels on page 24.

QUALITY WITH DISTINCTION

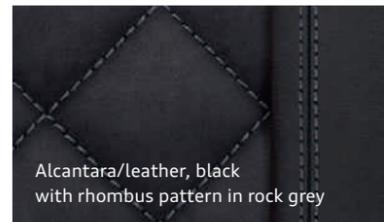

We've got your seats covered.

High-quality materials and first-class workmanship characterise the seats, which have earned special distinction with regard to quality and feel: RS.

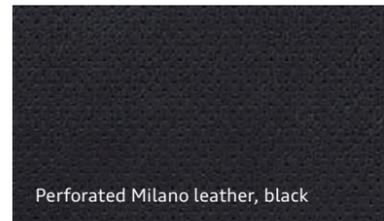

When selecting upholstery and colours, you can therefore focus on what is important: your taste.

Audi exclusive leather upholstery and trim

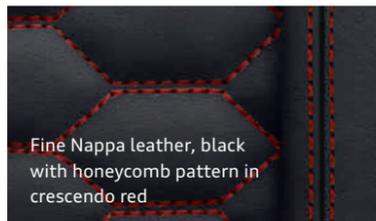

Alcantara/leather, black with rhombus pattern in rock grey

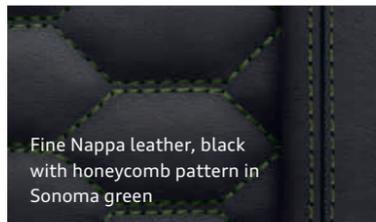

Perforated Milano leather, black

Fine Nappa leather, black with honeycomb pattern in rock grey

Fine Nappa leather, black with honeycomb pattern in crescendo red

Fine Nappa leather, black with honeycomb pattern in Sonoma green

Fine Nappa leather, lunar silver with honeycomb pattern in rock grey

Model	Audi RS 5 Sportback
Engine type	V6 petrol engine with direct fuel injection, turbocharging and Audi valvelift system
Displacement in cc (valves per cylinder)	2,894 (4)
Max. output ¹ in kW at rpm	331/5,700–6,700
Max. torque in Nm at rpm	600/1,900–5,000
Power transmission	
Drive type	quattro permanent all-wheel drive
Transmission type	8-speed tiptronic
Weights/capacities	
Unladen weight ² in kg	1,795
Gross vehicle weight in kg	2,320
Permissible roof load limit in kg	90
Fuel tank capacity, approx. in l	58
Performance/consumption	
Top speed in km/h	250 ³ , optional: 280 ³
Acceleration 0–100 km/h in s	3.9
Fuel grade	Sulphur-free SuperPlus RON 98 ⁴
Fuel consumption ⁵ in l/100 km	
urban	12.4
extra-urban	7.1
combined	9.1
CO ₂ emissions ⁵ in g/km, combined	207–206
Emission standard	EU6

Equipment for the Audi RS 5 Sportback illustrated (page 4–15)

Paint finish: Sonoma green, metallic

Wheels: 20-inch forged aluminium wheels in 5-arm flag design in gloss anthracite black, gloss turned finish⁷

Seats/seat upholstery: RS sport seats, front, in fine Nappa leather, black with honeycomb pattern in Sonoma green

Inlays: carbon twill

Additional equipment: Carbon styling package including attachments in gloss black, exterior mirror housings in carbon, RS sport exhaust system, RS ceramic brakes with brake callipers in gloss anthracite grey, Audi exclusive Sonoma green design package

Explanatory notes

¹ The figure given was calculated using the specified measuring procedure (current version of UN R85).

² Unladen vehicle weight includes driver (75 kg) and fuel tank 90% full, calculated in accordance with the current version of Reg. (EU) 1230/2012. Optional equipment may increase the vehicle's unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.

³ Electronically regulated.

⁴ We recommend using sulphur-free SuperPlus unleaded RON 98 fuel complying with DIN EN 228. If this is not available, use sulphur-free super unleaded RON 95 fuel complying with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10% (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/EC.

⁵ The specified fuel consumption and emission data have been determined according to the measurement procedures prescribed by law. Since 1 September 2017, certain new vehicles are already being type-approved according to the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure for measuring fuel consumption and CO₂ emissions. Starting on 1 September 2018, the New European Driving Cycle (NEDC) will be replaced by the WLTP in stages. Owing to the more realistic test conditions, the fuel consumption and CO₂ emissions measured according to the WLTP will, in many cases, be higher than those measured according to the NEDC. For further information on the differences between the WLTP and NEDC, please visit our website. We are currently still required by law to state the NEDC figures. In the case of new vehicles which have been type-approved according to the WLTP, the NEDC figures are derived from the WLTP data. It is possible to specify the WLTP figures voluntarily in addition until such time as this is required by law. In cases where the NEDC figures are specified as value ranges, these do not refer to a particular individual vehicle and do not constitute part of the sales offering. They are intended exclusively as a means of comparison between different vehicle types. Additional equipment and accessories (e. g. add-on parts, different tyre formats etc.) may change the relevant vehicle parameters, such as weight, rolling resistance and aerodynamics and, in conjunction with weather and traffic conditions and individual driving style, may affect fuel consumption, electrical power consumption, CO₂ emissions and the performance figures for the vehicle.

⁶ Technical specifications refer to a basic vehicle without country-specific features and the selected optional equipment.

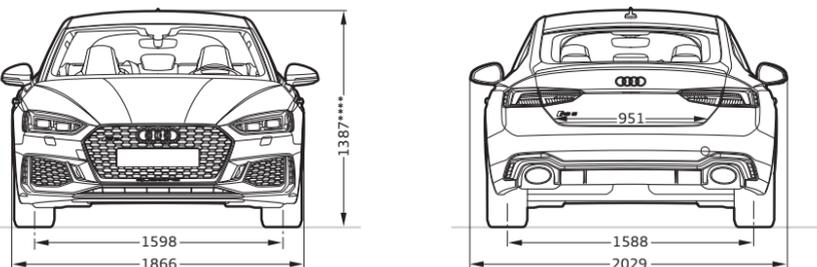

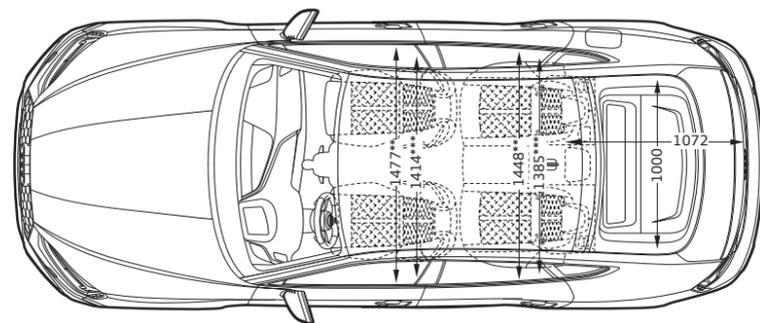

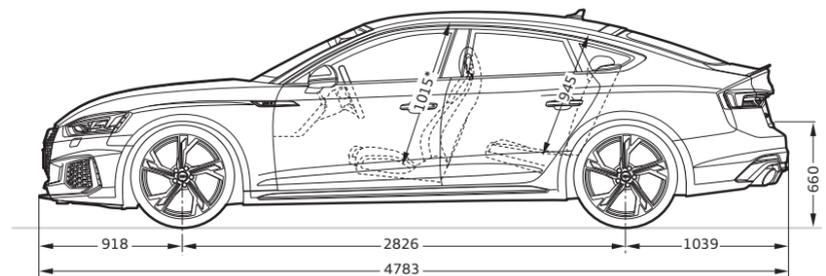

⁷ Please note the special information relating to wheels on this page.

Important note

Special information about the wheels: Wheels with gloss turned or gloss milled finish as well as polished or partly polished aluminium wheels must not be used in wintry road conditions. For manufacturing reasons, the rim surface does not have sufficient corrosion protection for such use and can be damaged permanently by road salt or similar.

Sporty driving: Models from Audi Sport GmbH are developed and produced for driving on public roads. Compared to normal road use, vehicles are put under significantly more stress when used on racetracks or other closed circuits (e.g. during driving training, driver courses, track days). This particularly applies to the engine, transmission, clutch and drivetrain as well as to the suspension, brake system and tyres. This can result in greater wear. Special information about driving the vehicle on racetracks or other closed circuits is available in the owner's literature or from your Audi partner.

Audi RS 5 Sportback	Dimensions in mm
Dimensions are for unladen vehicle weight. Luggage capacity ⁶ 465 l. Turning circle approx. 11.7 m.	
*Maximum headroom. **Elbow room width. ***Shoulder room width.	
****With roof aerial the height of the vehicle is 1,399 mm.	

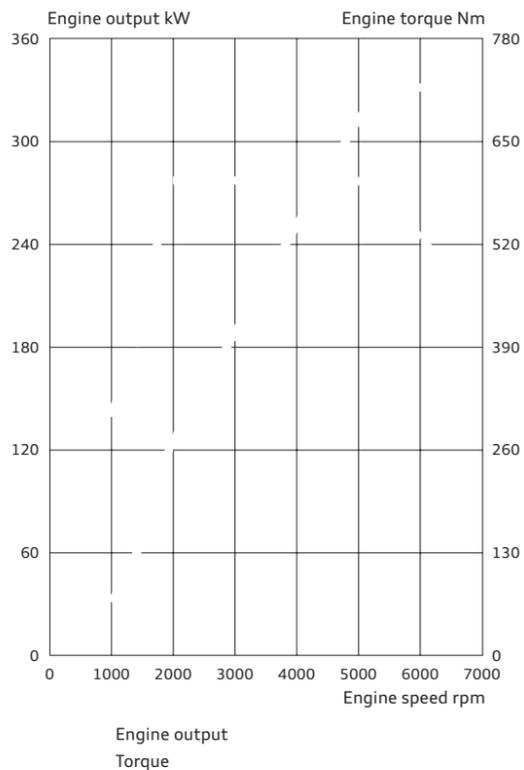

Classifications of tyre parameters

The table shows the range of fuel efficiency, wet grip and exterior noise emission classes for the different tyre sizes of the Audi RS 5 Sportback.

	Tyre size	Fuel efficiency class	Wet grip class	Exterior noise emission class
Summer tyres	265/35 R19	E	A	73–71
	275/30 R20	E	B–A	73–69 -
Winter tyres	235/40 R19	E	C	73
	275/30 R20	E–C	C	73

It is not possible to order a specific tyre. Ask your Audi partner about the range of tyres available in your country.
